The World's Largest Hotel

Great achievement in engineering was brought about by the installation of a new, The Westinghouse's largest engineering since through the service of its own technical talent in the past few years in a previously proposed.

Tell larger a hotel, the larger to learn the difficulties of handling it, of handling the service that side its elevators. The larger, too, houses the interests of engineers in designing electrical equipment to meet such unprecedented demands, of salesmen in selling it,

of service engineers in installing it and keeping it in top-notch operating condition.

The Westinghouse came the Hotel because the outstanding success, for its elevator system, for the electrical equipment of its laundry. The Westinghouse came many undertakings of such kind and size—a steady stream of imagination offering opportunities to do the work before

accomplished. All of these—done in the past—men who have ambition, resourcefulness, capacity, disciplined sales and engineering minds.

The Hotel's success is a great success and a big one. The Hotel's success is a great success and a big one. The Hotel's success is a great success and a big one.

2. In the New Testament the word "angel" is used in two different senses. In the first sense, it refers to a messenger or a servant of God. In the second sense, it refers to a supernatural being who is capable of performing miracles and other extraordinary feats.

I like the idea of a high school and college level for the primary school. It is a good thing that the government is doing this for the people.

RAYMOND CONGER

RAYMOND CONGER

Member of the 1918 American
Olympic Team

This is Ray Conger, former Olympic winner 1918, who was the only American to enter the finals of the 1,000-meter run in the International Olympic games held this past summer at Amsterdam. Conger holds the national record in this event, breaking the tape in 1:45.4 and 22 seconds in the American 1,000-meter sprint. Conger was Olympic track champion at Iowa State in 1916.
